

WEB-111 Week 1 Assignment

WEB-111 is comprised of a series of Linked-in Learning video courses. Take the time now to verify that you can access Linked-in Learning and locate the first video course.

Access Linked-in Learning from Off Campus

Web sites change over time. The steps are current as of November 2021. If the web site has changed and the steps below no longer work, figure it out!

1. Start your favorite web browser and navigate to <https://www.linkedin.com/learning>
2. Click the  link at the top-right of the home page.
3. Sign in with ***your*** complete student email address.

Access the First Video Course

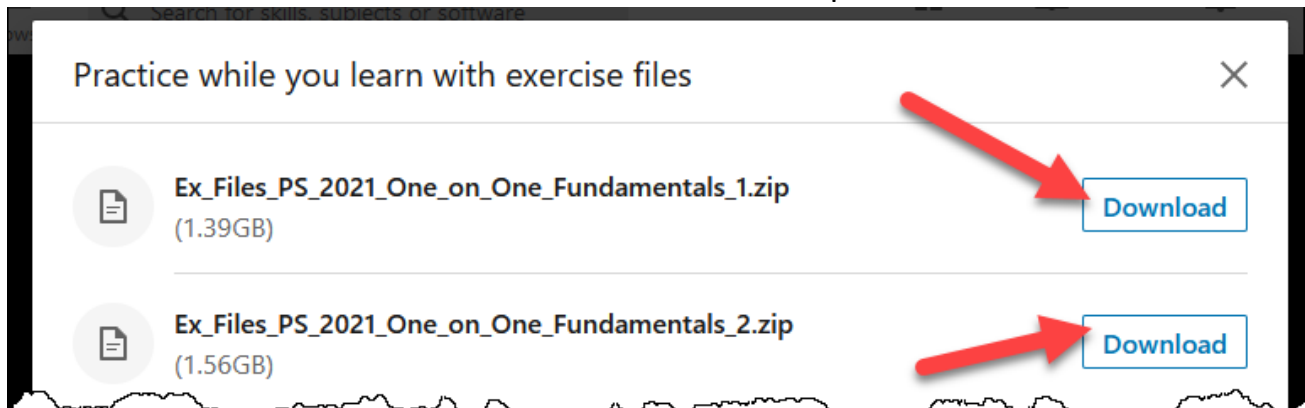

The name of the first video course is **Photoshop One-on-One: Fundamentals**. The presenter is *Deke McClelland*. The total time is about 13h, which you will spread out over the first 11 weeks of the semester. This course has about 4 GB of exercise files that you must download before beginning to watch the videos.

1. Click the following link (or copy/paste it) to access the course:
<https://www.linkedin.com/learning/photoshop-one-on-one-fundamentals/welcome-to-one-on-one>

2. Click the **Exercise Files > Show All** link.

3. Click each button to download the two exercise files zips.

4. When the downloads are complete (which will take several minutes depending on your Internet connection), locate the downloaded ZIP files and extract them. **You cannot work with the files if they are still zipped!**
5. Once unzipped, delete the downloaded ZIP files and work with the files in the unzipped folders.

Required Viewing for Week 1

The following videos are required watching for this week. After watching all the videos and following along performing the steps with the exercise files, complete the assignment at the end of this document.

- Introduction (1 video)
- Ch 1 – Open (6 videos)
- Ch 2 – Navigate (13 videos)

Assignment for Week 1

Watch all the videos first. Then complete the following. A portion of this assignment shows me that you have downloaded the exercise files and have accessed the videos.

- Complete the **Know What to Expect** quiz in Moodle. You have unlimited attempts. No excuse to not make a 100% on this!
- Create a new folder on your computer named **last-first-week1**. Use your actual first and last name. Capitalization matters. Name it exactly as I have asked.
- Locate the **01_open** folder from the exercise files you downloaded earlier and copy the **Welcome.jpg** image to your **last-first-week1** folder.
- Load the **2. Navigate > Zooming In And Out** video from the LinkedIn Learning course. Pause the video so it stops playing.
 - Below the video, click the **Transcript** link.
 - Take note of the **7th word in the first sentence**. Do not count [Instructor] as a word. The first word is *All*. The second word is *right*. The third word is *I'm*. Etc. You will need the seventh word as the 'secret word' later.
 - Create a new blank Microsoft Word document. Type your name, tap [enter], and type that secret word from the previous step.
 - Save the Word document to the **last-first-week1** folder with the file name **last-first-transcript**.
- Your **last-first-week1** folder should now contain two files (a JPG image and a DOCX Word document). Zip the **last-first-week1** folder and upload it to Moodle. Be sure to zip the folder itself and not just the files inside the folder.
