

Week 3 Assignment

Objectives:

- Improve photo luminosity
- Remove color cast

Required materials:

- Autumn-Leaves.jpg
- Dog.jpg

Luminosity

1. Open **Autumn-Leaves.jpg**. The photo is blown out with a blue/gray color cast.
2. Use any combination of techniques from the Brightness chapter to improve the quality of this photo (left). When complete, the colors/brightness/contrast should look similar to this (right):

Before

After

3. Save your file in the native Photoshop format (PSD).

Balance

1. Open **Dog.jpg**. The photo has a green color cast.
2. Use any combination of techniques from the Balance chapter to improve the quality of this photo. When complete, the colors/brightness/contrast should look similar to this:

3. Save your file in the native Photoshop format (PSD).

Assignment Submission

1. Create a folder named **last-first-week3**.
2. Move your two completed PSD files into the folder.
3. ZIP the folder and submit via Moodle.
